Subject: Fwd: Comments/Proposed Title V Permit for Covanta Delaware Valley, L.P. (Chester, Pennsylvania)

Cristina,

This is a second email that Joe Minott asked me to forward to you, in the hope that this will be helpful to your staff.

I am attaching the comments on the proposed Title V permit for the Covanta facility in Chester that Clean Air Council and other organizations submitted to the Department of Environmental Protection in October 2021. They are relevant to our discussion of environmental justice in our meeting last week.

Argument I (pages 24-30) explains why the Department of Environmental Protection should abandon the notion that it "must" grant an application for a Title V Operating Permit that meets minimum requirements. This is one of the reasons why environmental justice is not being addressed in air permits in Pennsylvania.

We believe comments are still being reviewed by the Department of Environmental Protection.

Thanks,

Chris

Department of Environmental Protection,

Attached are the written comments of Clean Air Council, Environmental Integrity Project, Clean Air Task Force, and Sierra Club regarding the proposed Title V operating permit for the Covanta Delaware Valley, L.P. incinerator in Chester, Pennsylvania.

Thank you for your consideration of our comments.

Thanks,

Chris
